**Subject:** Mirant Plant and City Sewage problems

Hi,

I wanted to notify you regarding the MIRANT Power Plant that is next to my unit in Old Town Alexandria.

For all of my life I've had allergies because of my lungs and run air purifiers on 3 floors of my unit in order to ensure hi quality air inside my townhome. Lung problems include asthmatic attacks, decreased respiratory ability in polluted environments and irritation in eyes and my mouth, and I would describe myself as exceptionally sensitive to air contamination.

There is probably only one or two people who live closer to the Mirant plant than I do. I walk outside alongside the MIRANT plant 4 or 5 times a week and wish to describe my experience.

I suffer no noticeable breathing ailments at all either indoors (with my air cleaning systems running) or outside along the plant.

To be precise, I have problems with the city sewage systems after a rain because the city refuses to fix sewage run off problems which are much much more of a problem than the Mirant plant.

The air is very clean around the Mirant plant. The foilage is very green and healthy (probably) because of the CO2 emissions which seem to cause the foilage to grow very quickly.

I have never seen a trace of emissions such as black soot from the smokestack, or smelled a trace of emissions, (other than noise from the coal train) and I've conducted the following test:

I have not washed my window screens for nearly 2 years (unless the HOA does it without my knowledge) which have had an opportunity to collect all forms of any air contaminants. My window screens are remarkably clean considering that it's 2 years of collection without washing.

In addition I really appreciate that Mirant provides us with public tours from time to time, maintains their foilage that grows so fast it covers the joggers trail, by clipping it when it gets in the way of bikers and joggers.

And I really appreciate that MIRANT recently painted their fence using local themes.

MIRANT is a great neighbor to have, as far as I am concerned, and I am appreciative of the jobs they provide to the area as well as the quality electricity for a reasonable price.

I have not had a single problem with the plant and would be the first to complain if I did.

PLEASE DEMAND THAT THE CITY FIX THE AWFUL AND UNHEALTHY PROBLEMS WITH THE SEWAGE RUN OFF .... THAT PROBABLY VIOLATES ANY REASONABLE SANITATION STANDARD IN THE COUNTRY. COME OUT NEXT TIME A HEAVY RAIN COMES.

THE CITY HEALTH DEPARTMENT IS 100,000% NON-RESPONSIVE TO MY COMPLAINTS ABOUT SEWAGE SANITATION.

David Hunter

Subject: mistake in the web addresses

Hi all,  
It was brought to my attention that the web addresses I gave out were in error. Here are the correct ones.

Website for information  
[www.deq.virginia.gov](http://www.deq.virginia.gov)

Email to send in your input on the Mirant Plant  
thdarton@deq.virginia.gov

Sorry for the inconvenience!  
Nancy
